

ADV's Customer Security Featured in
Japanese Monthly Magazine "SKETCHPRO"

November 5, 2015

One of AEON Delight Vietnam's services, Customer Security, was featured in the Japanese monthly magazine "SKETCHPRO" in September.

Customer Security refers to the service staff that offers both in-store information services with "hospitality" and a "smile" as well as attendant services to provide support to customers. ADV has introduced Customer Security at two AEON Malls. The 2-page long article presented specific examples of services offered by Customer Security and its training system, based on an interview with Takayuki Isogai, President of AEON Delight Vietnam.
