

PROTECTING THE LIFE AND KEEPING PROPERTY OF CUSTOMER

September 14, 2017

In Japan, Aeon Delight has a history of following a fairly large fires happened over 40 years ago. Understand about the pain of loss caused from such fire accidents, all staffs of Aeon Delight is trained that great mission for which the staff is to take Aeon Delight to protect lives and property. As the Aeon Delight, instill this thinking and ideology, I am very eager to promote and replicate more of that spirit in Vietnam, such as the philosophy of the Aeon Corporation stated: Aeon protection of daily life and the life of the people.

Our mission is every day open for the last day, activity center activity center closed when finished. During the operation of the Centre shall have the door automatically closes the open, when guests step into will have a cool environment, full lighting, escalator continuous operation ... All these are of course activities, and the professional to operate things naturally by Aeon Delight in charge. While we are always thinking of safety, peace of mind, comfort of the customers, stand on the stance the customer to operate the Center. Aeon Delight is active with the mind that is the front line in the scene to serve the customers.
